The new DOM42
midrange-tweeter
using AIRE technology,
developed from
the famous
DOM40 in the Cabasse
Farella, and the legendary
Cabasse Duocell
woofers give this slim
new loudspeaker
the foundation
and the power
of big multichannel
systems, and the sound
image realism
aptly provided
by the SCS concept.

DOM42
Midrange-tweeter

The AIRE - Air Integrated Response Extender -, positioned behind the diaphragm, regularizes the frequency response at both ends of the tweeter's bandwidth, thus extending its useful range. It also improves the DOM42's power handling capacity.
